trash can

paper tissue box

# ANNOTATION

The paper tissue box and trash can set is designed to fit into the space provided in cars for cups.

# SPACE WITHOUT ACCESSORIES

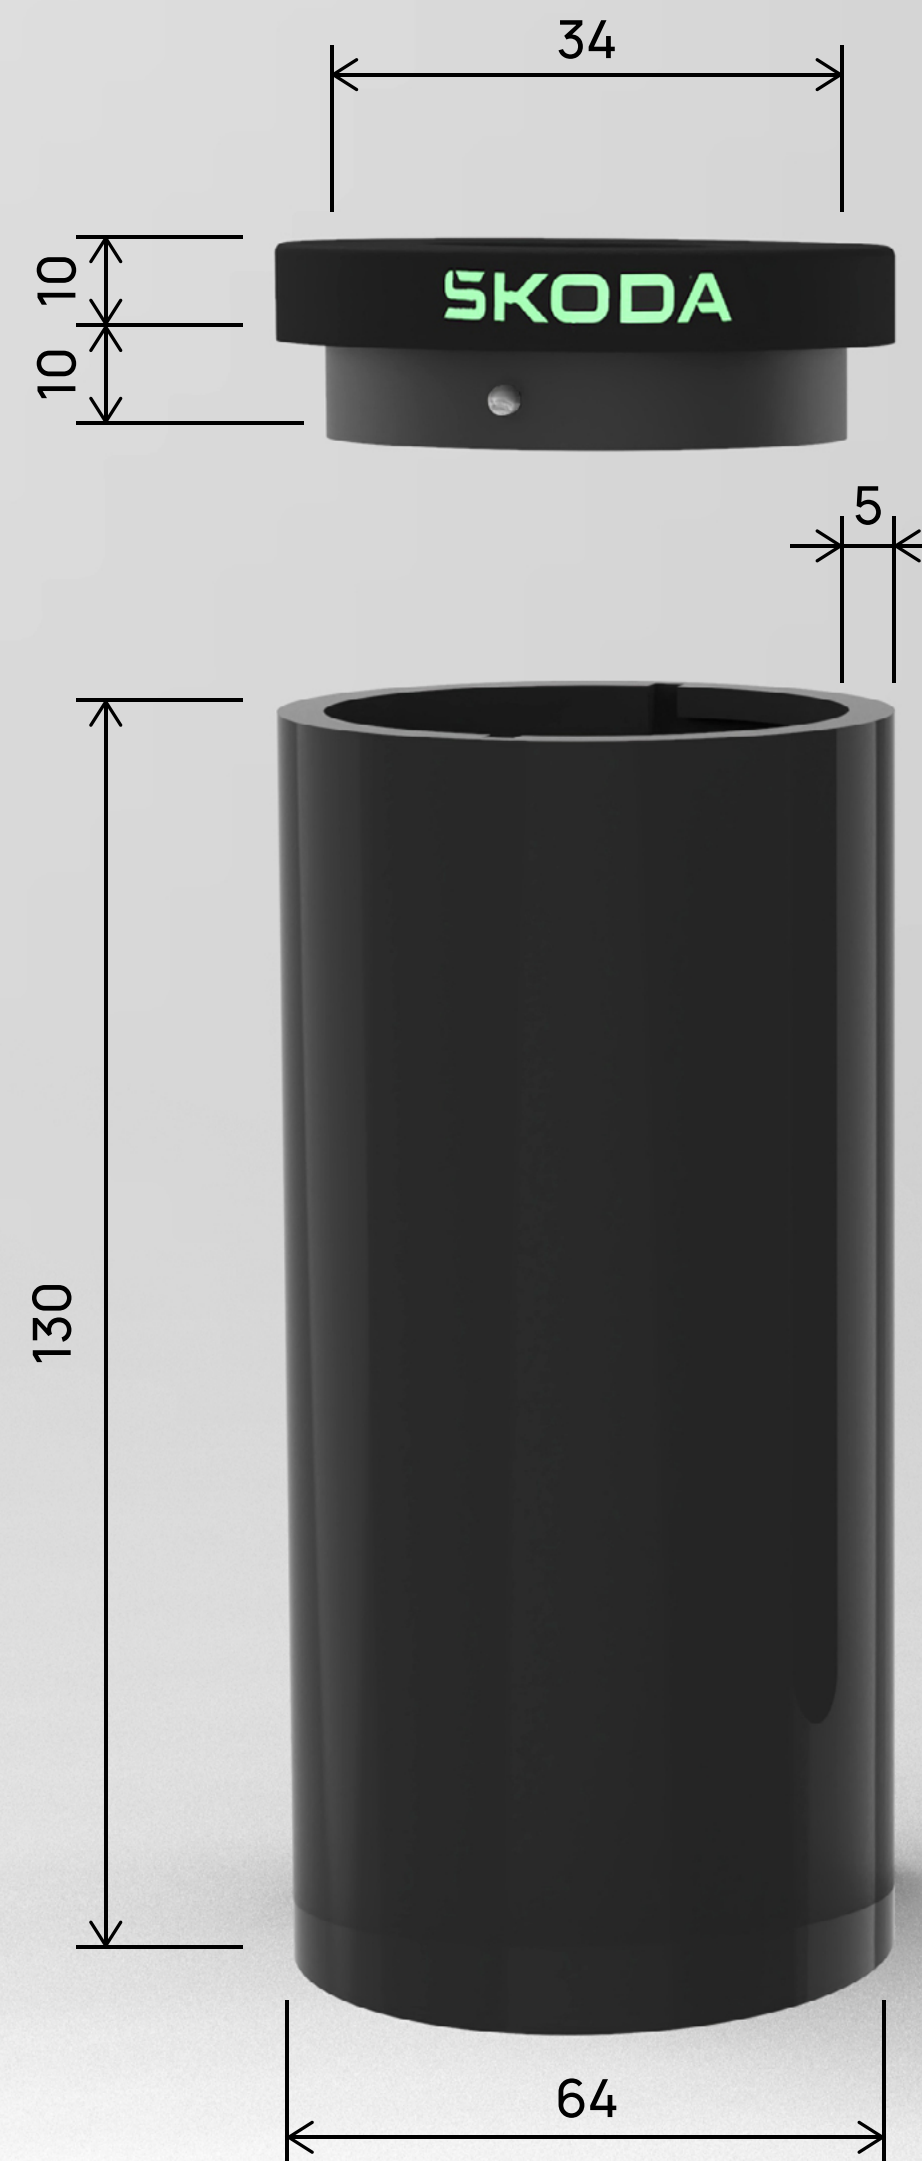

Paper tissue box and trash can be removed at any time and replace it with a drinking cup. It is possible use only one of the products as required.

# PAPER TISSUE BOX

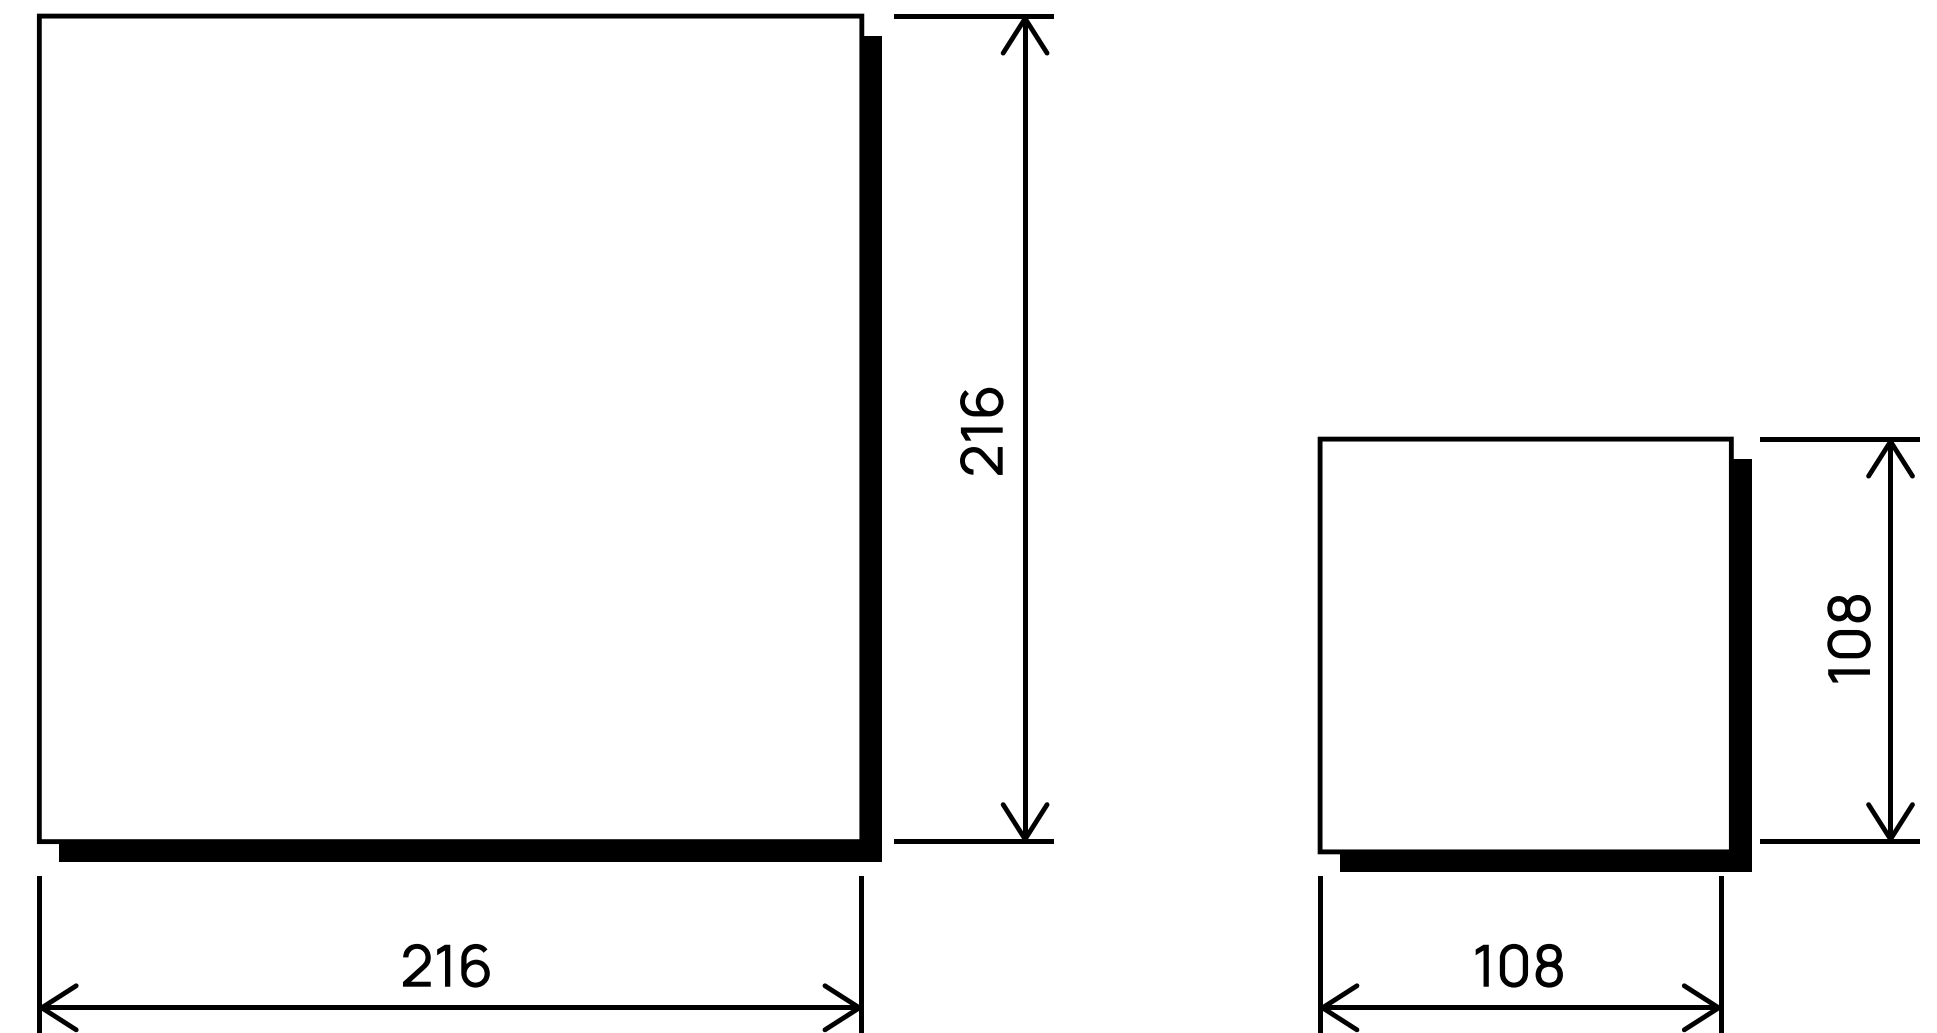

Tissues can be easily pulled out from the box as with conventional paper boxes. The capacity of the box is **40 tissues**. The lid is secured by a bayonet thread.

# TISSUES IN A BOX

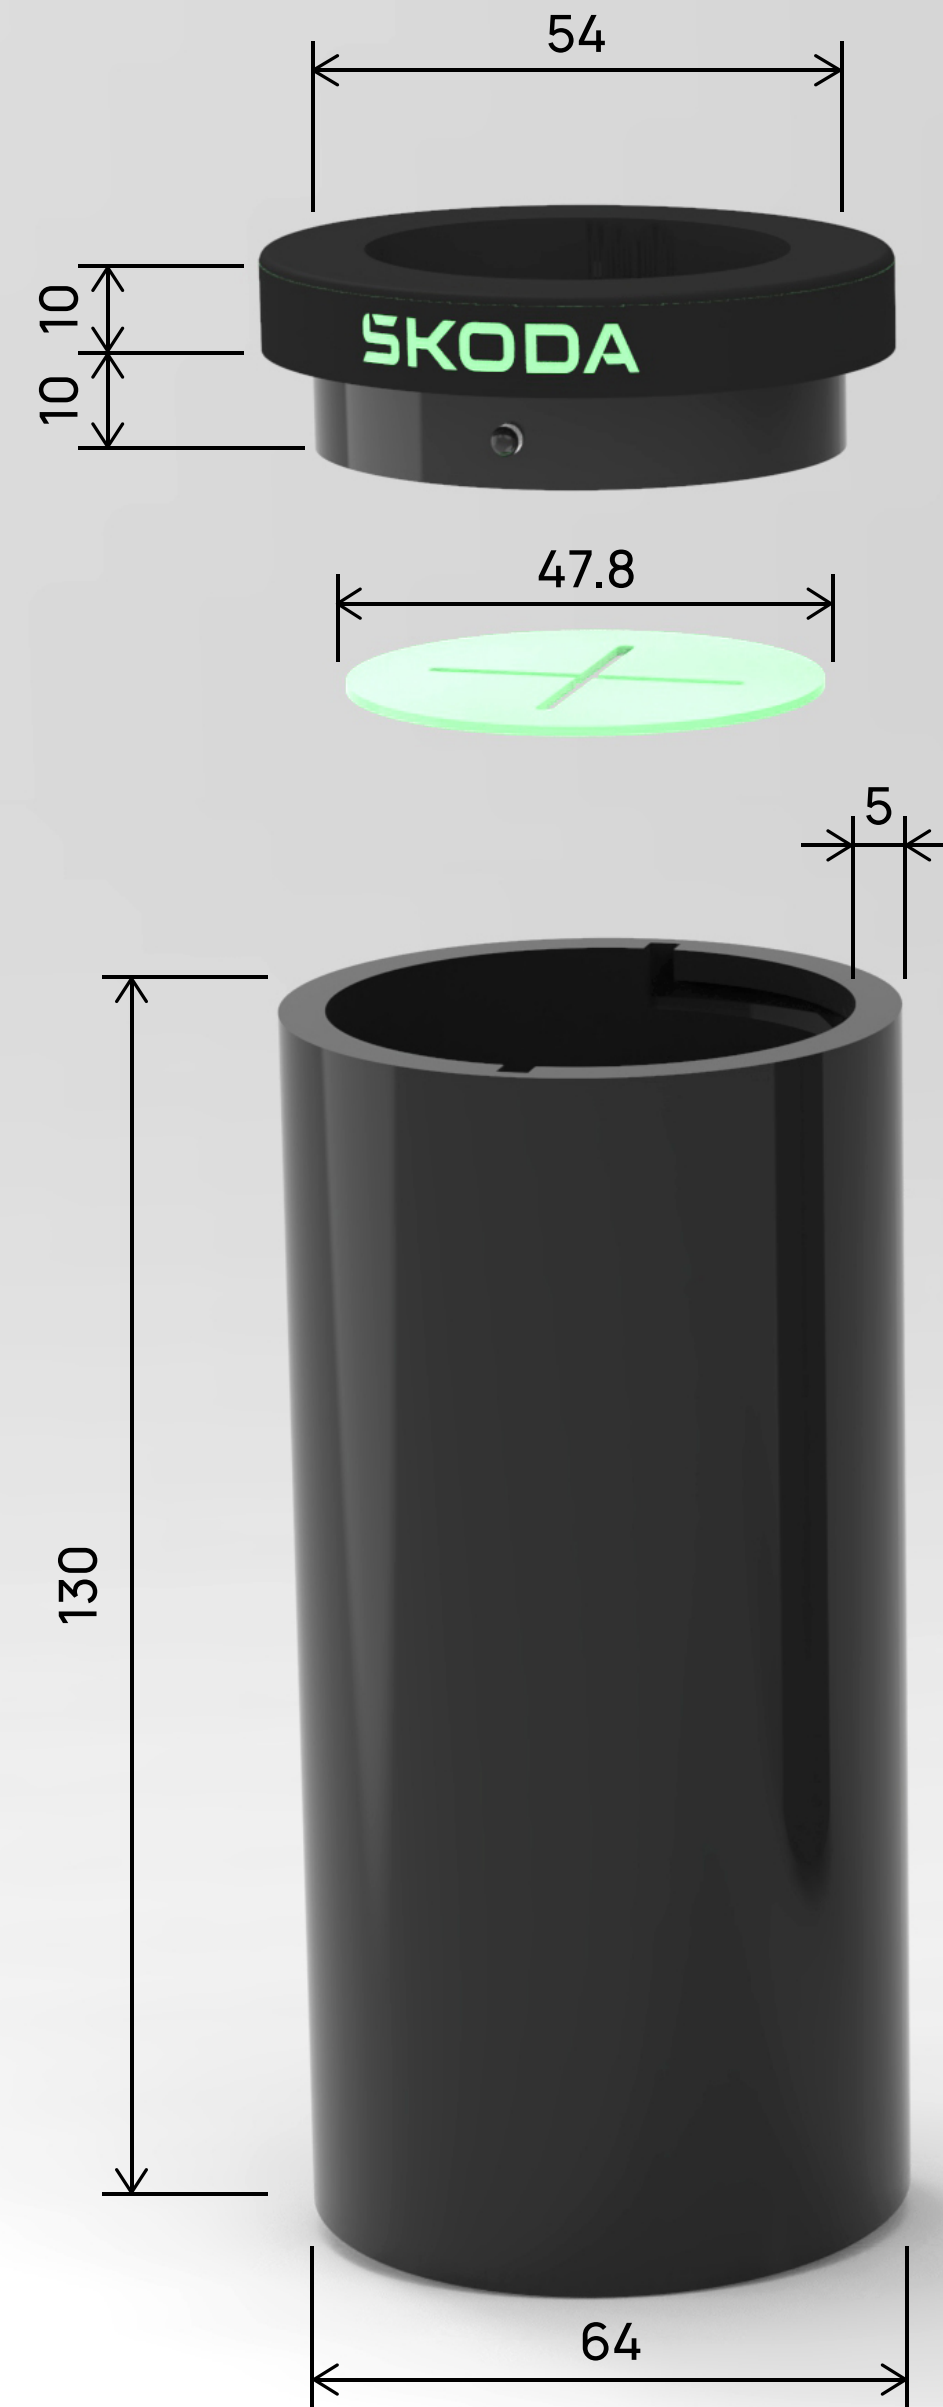

Tork Xpressnap® N10 tissues are used in the box, which measure 108 x 108 mm when folded and take up less space than conventional tissues. When unfolded, they are 216 x 216 mm.

# TRASH CAN

Used tissues and other waste can be thrown into the opening, which is fitted with a silicone pass-through cap. The cap is secured by a bayonet thread.

# CLOSURE FOR THE TRASH CAN

Silicone pass-through closure is fixed into the lid of the trash can hinges.
