UTB / FMK / NIKOLA ORSÁGOVÁ / I. MgA / STORAGE BOX / 2023

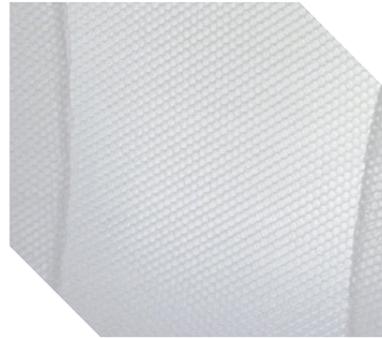

STORAGE BOX

- category „accessories“
- positioning on front and back seats
- prevents free-falling objects
- allows clear organisation of stored items (from bottles to napkins, etc.)

ELASTOLLAN

- the box is designed with one material Elastollan, TPU rubber-like reinforcement and Velcro straps
- weight of the fabric is 439 g/m²
- the Velcro straps work on the principle of mushroom-shaped locks that fit together, allowing for variability in fastening

FIXATION ON THE SEAT

- the box attaches behind the headrest with straps and Velcro

BACK SEAT FIXING

FRONT SEAT FIXING

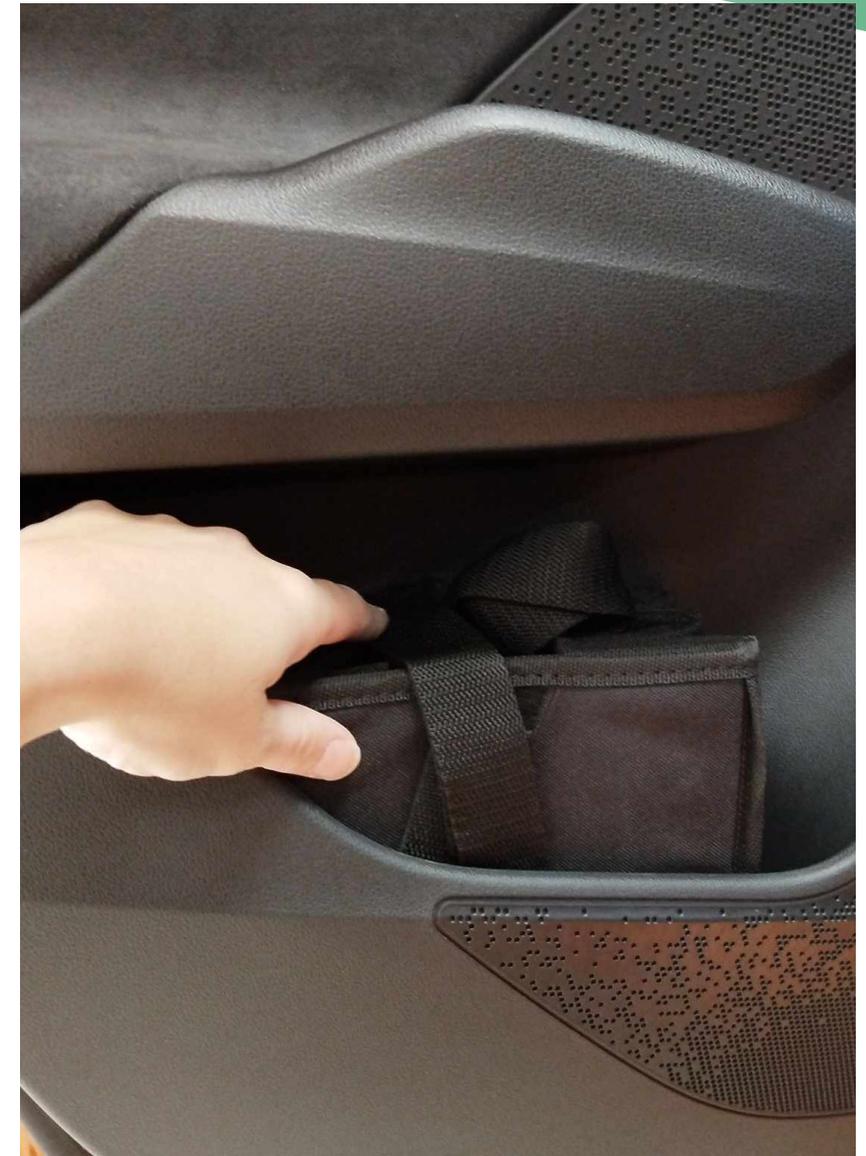

INTERNAL ARRANGEMENT

- the internal partitions of the storage box are fastened with Velcro straps, which ensures variability and flexibility for storing items

FOLDING & PLACING

- grooving and stitching of the inner liner allows for box composition
- strap and Velcro fasteners for fixing
- folded box is placing into cars doors

PORTABILITY

- the box can be made into a bag by tying the straps together
- suitable for short distances or preconditioning at home (travelling with children)

DIMENSIONS

– strap length: 2620 mm
