

Space filler a car accessory

Lucie Pastyříková | 2023

PROBLEM

Space between the front seats and the middle part of the electric car.

Small stuff like phone can fall there and disappear. It's hard to get them out.

SPACE FILLER

The main advantage is that the product is recyclable, simple, flexible and easy to use.

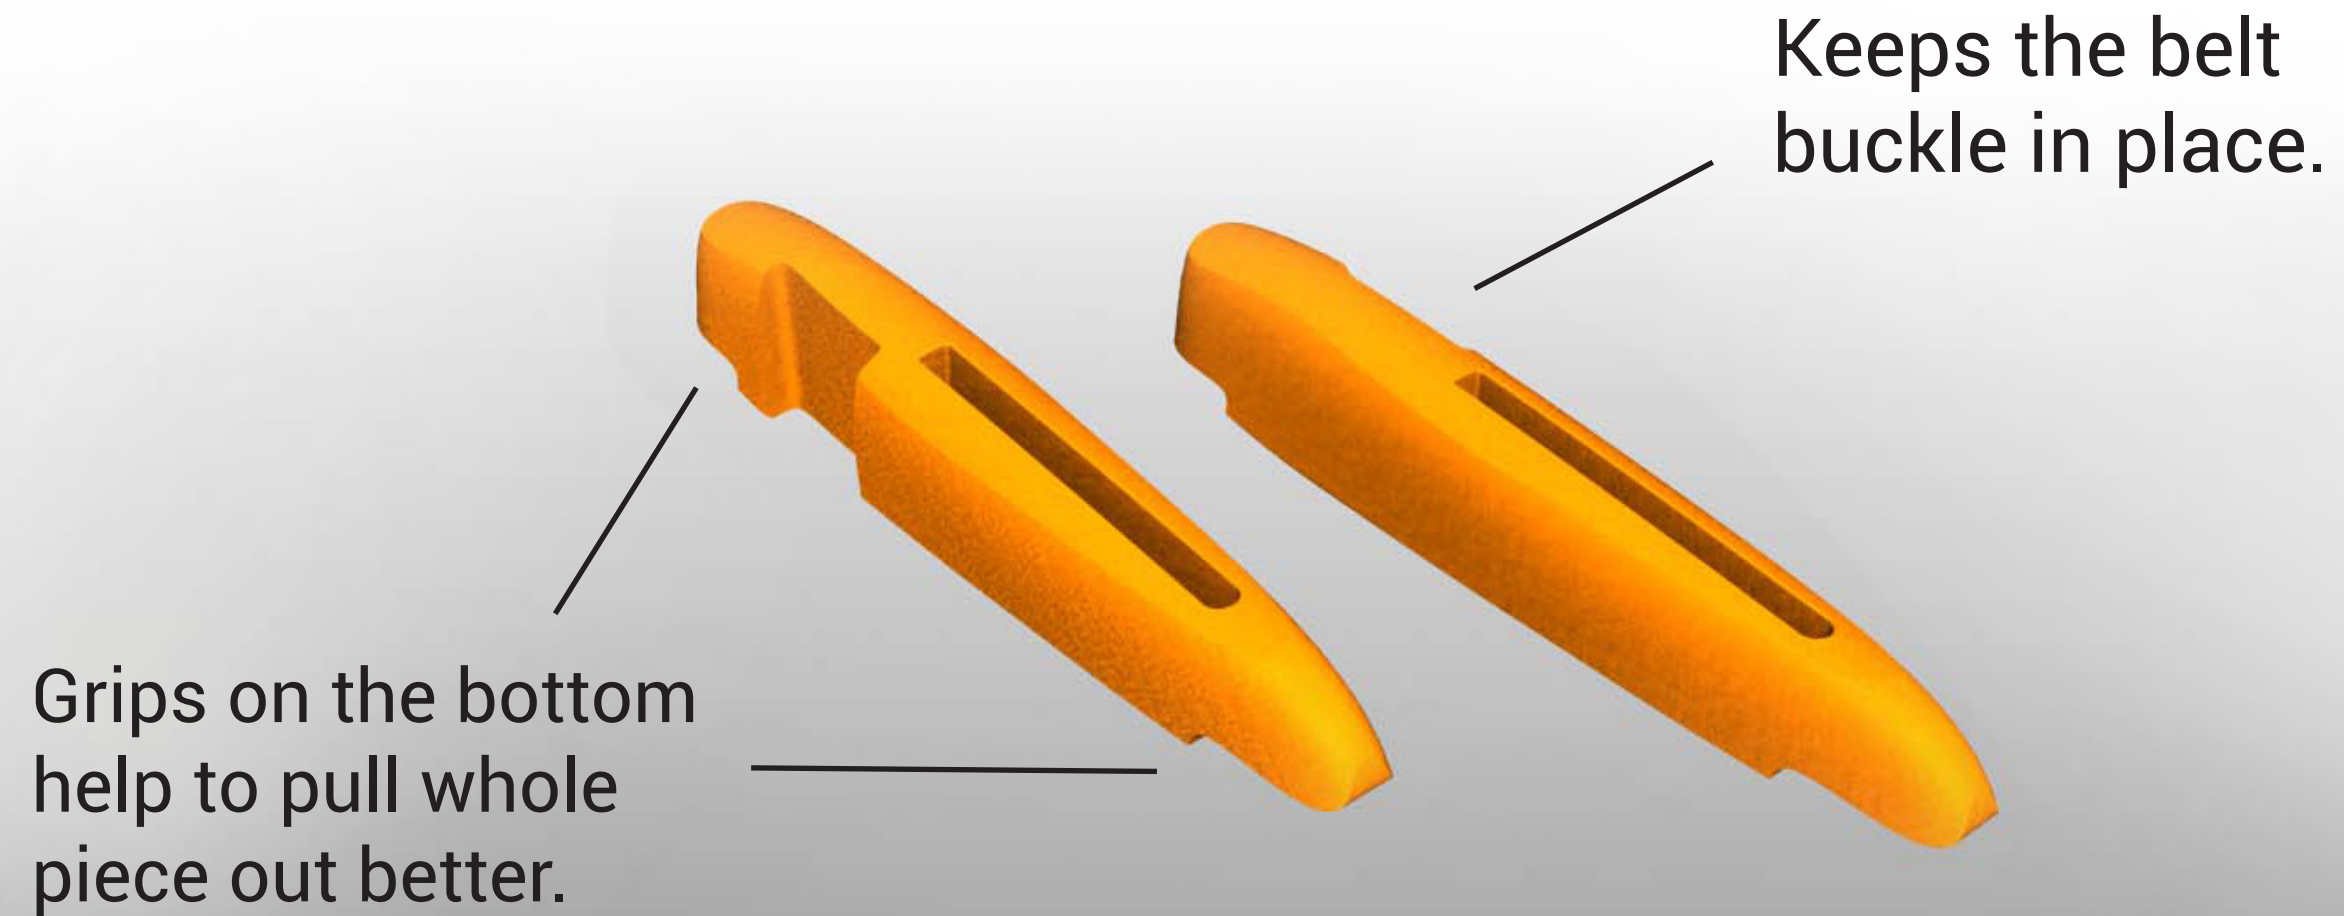

SHAPE AND MATERIAL

Shape of the product is slightly inspired by car silhouette from the side.

Made out of one material, Infinergy 230.

FUNCTION

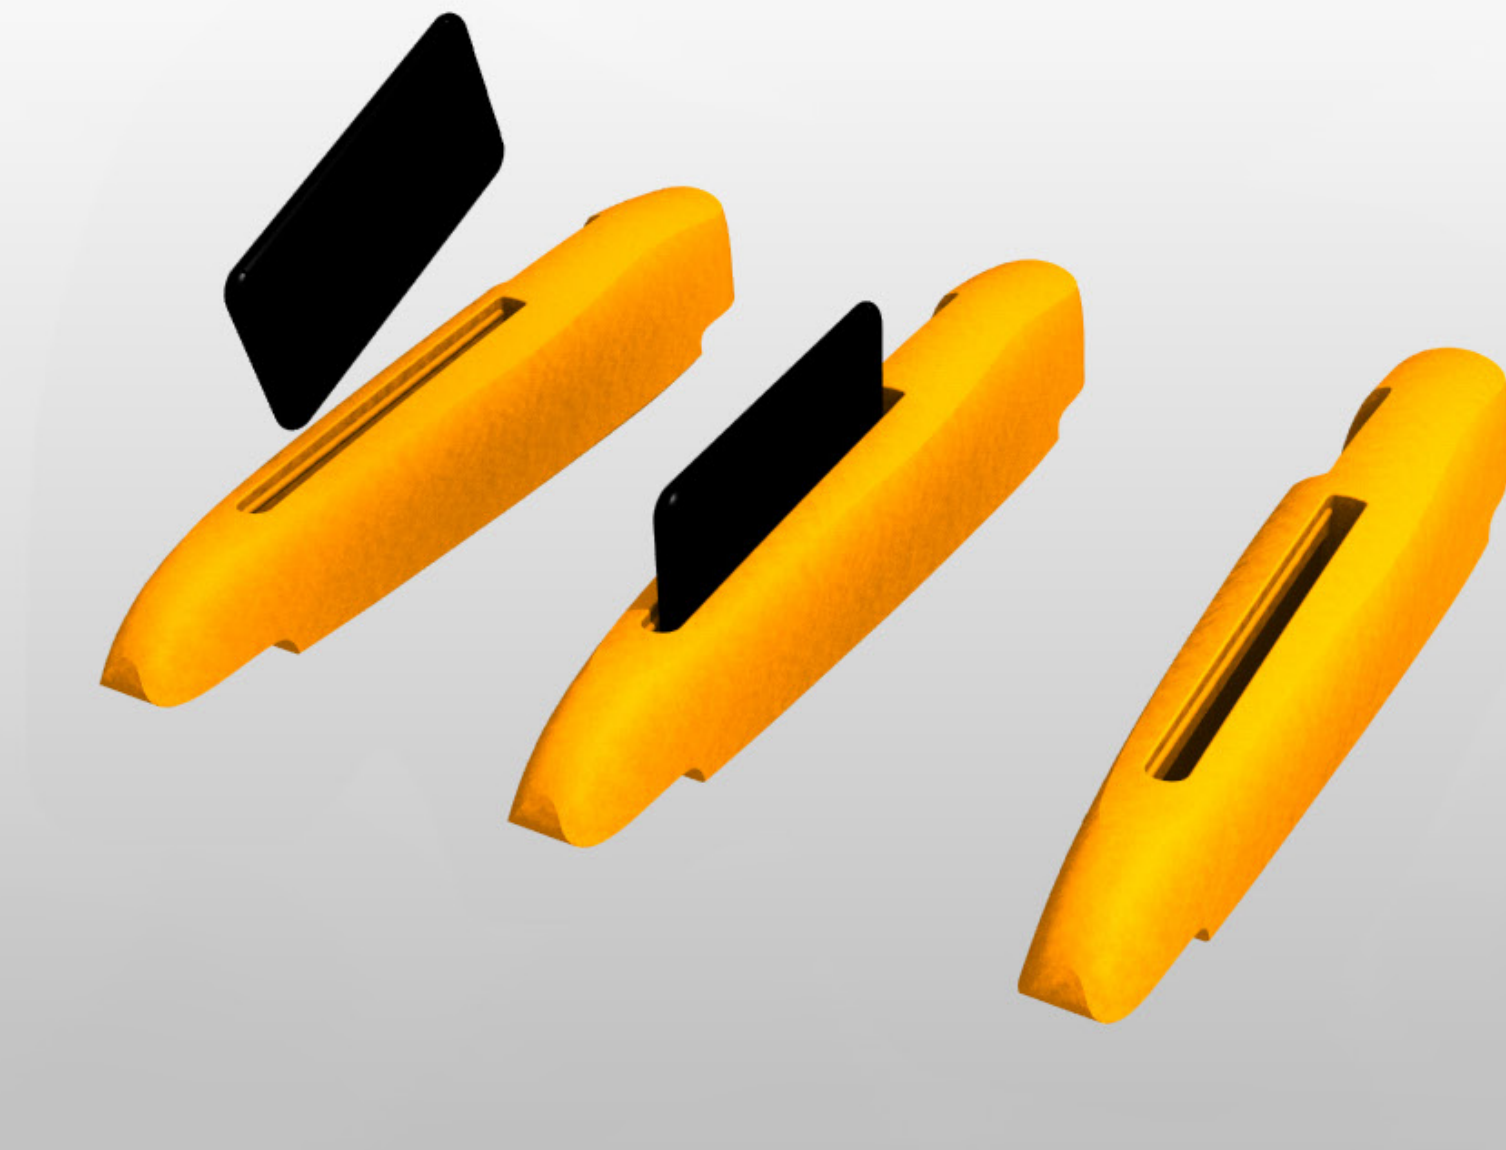

PHONE HOLDER

A safe place to put your mobile in while driving.

All standart phones can fit in.

The phone is secured by two grooves inside the hole.
