

SWEETS IN THE BOX

**MODEL YOUNG PACKAGE 2024
PETRA OCHODNIČANOVÁ**

ANNOTATION

The hexagon-shaped wrapper is designed for honey balls. This shape was not chosen on purpose - it draws inspiration directly from nature, specifically from the structure of honeycombs, which are made up of hexagonal cells.

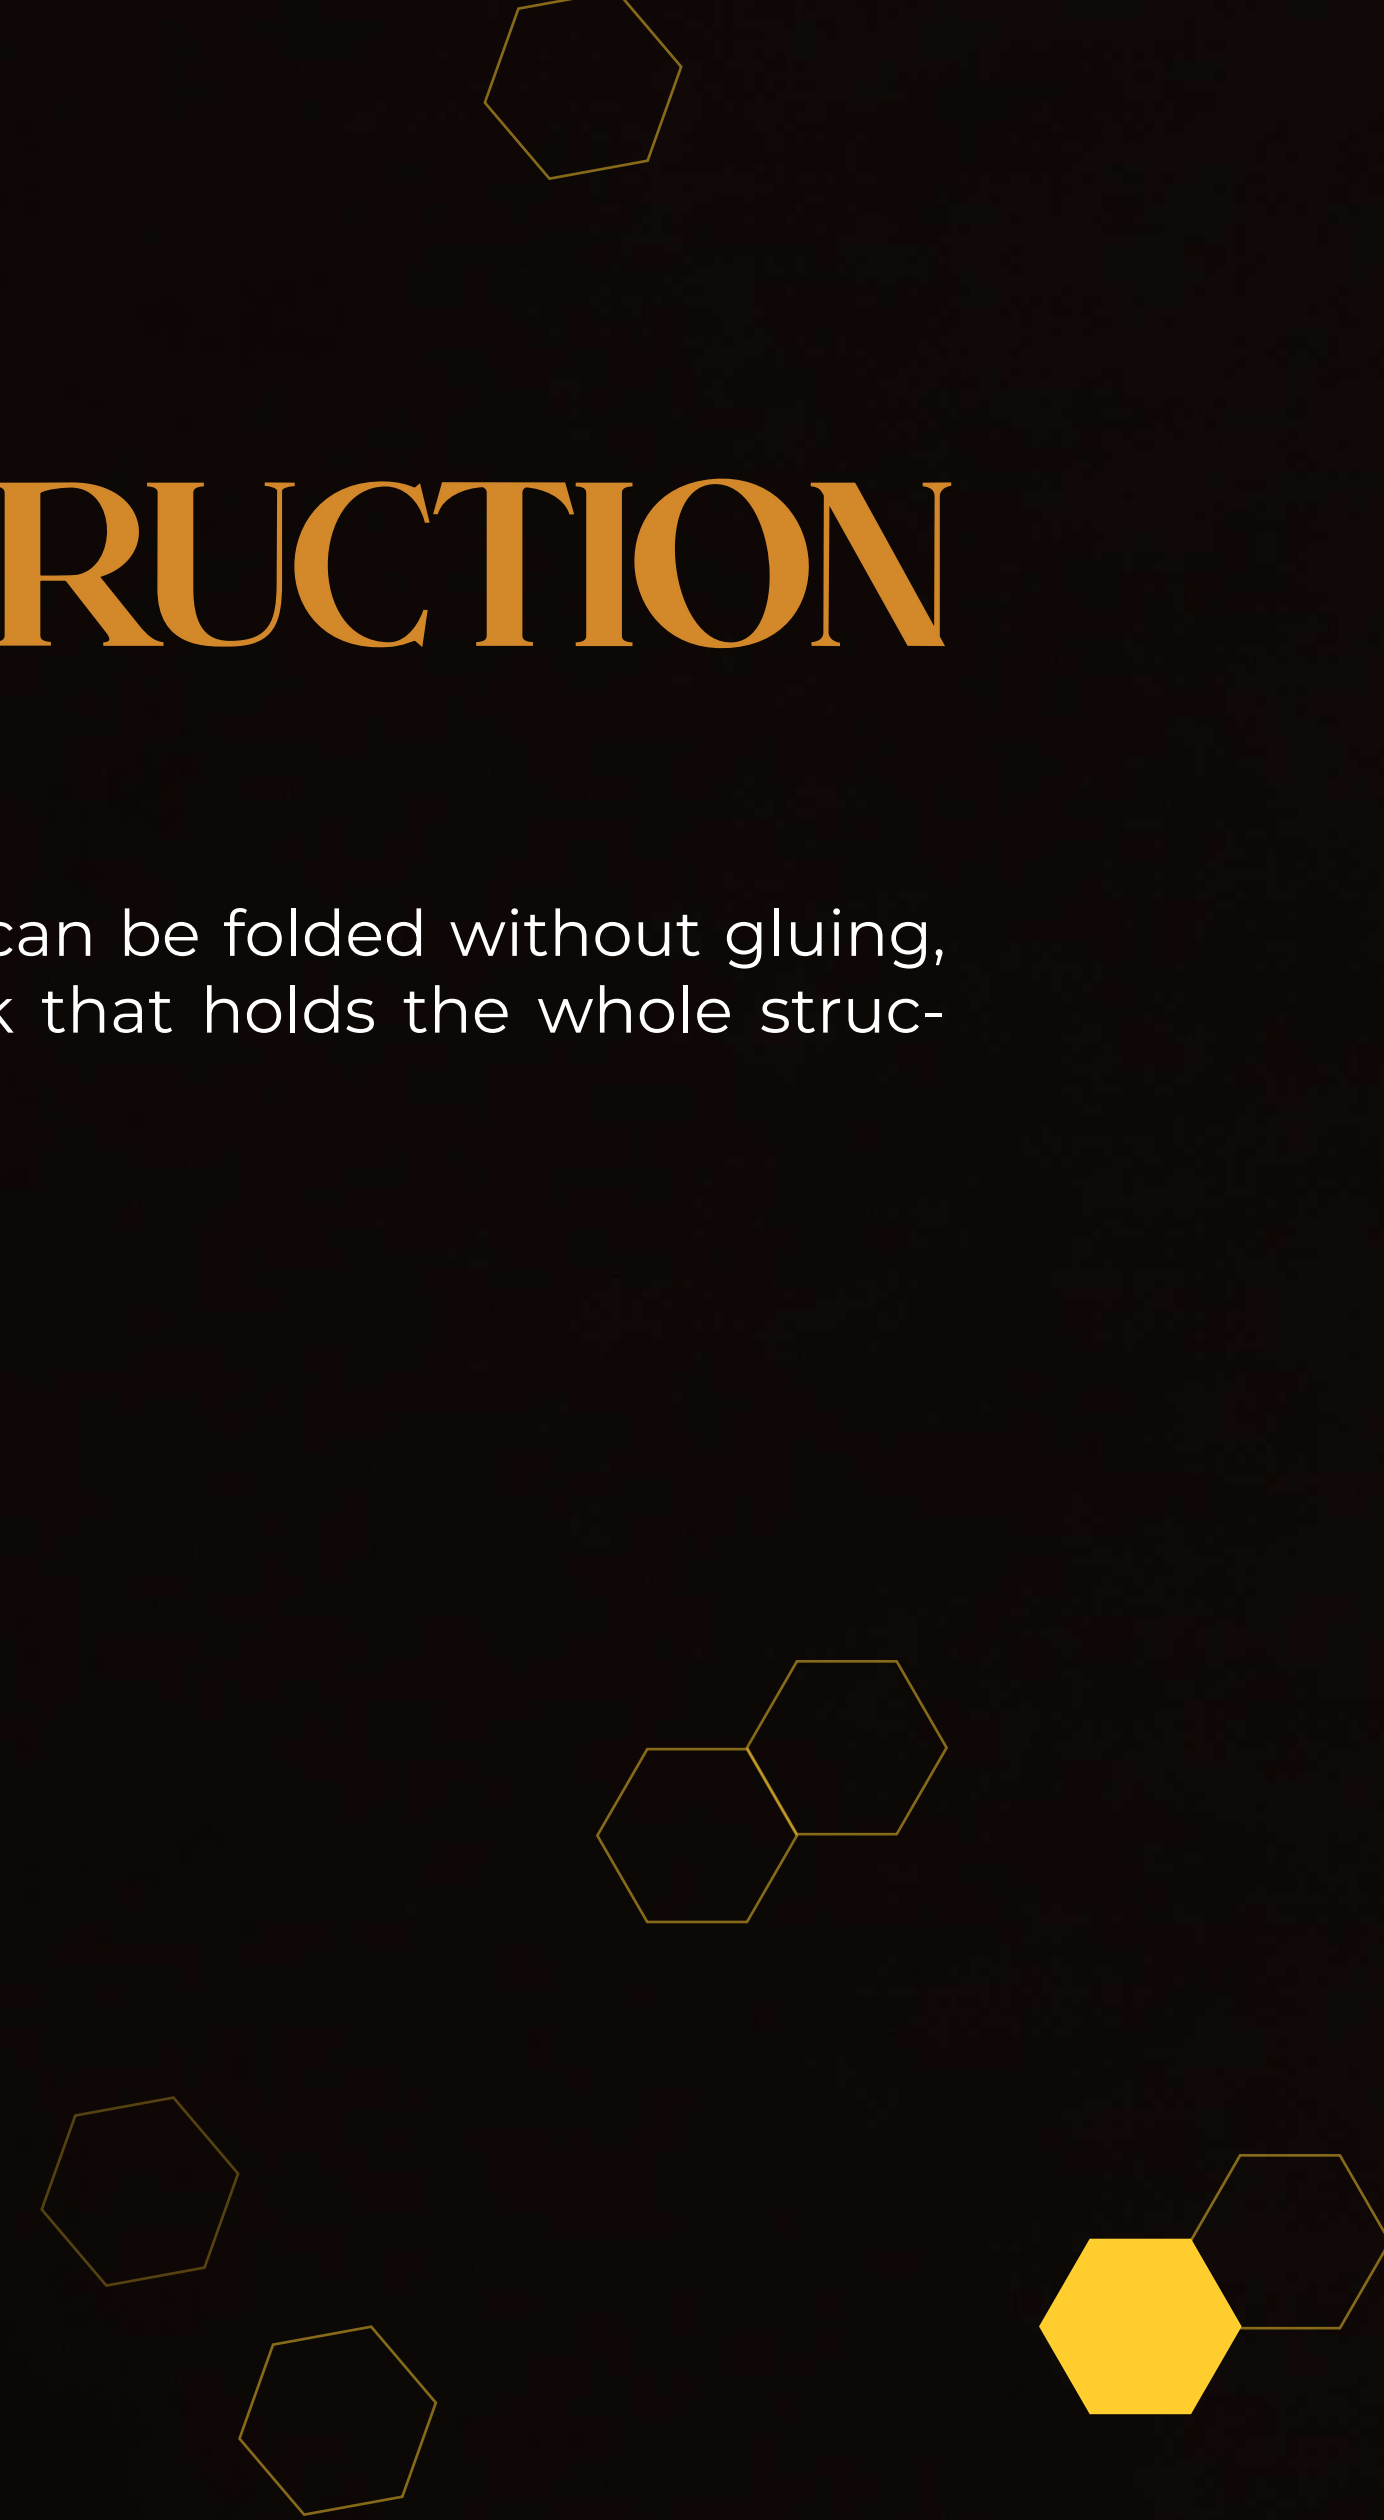

There is space for 10 balls in the packaging.

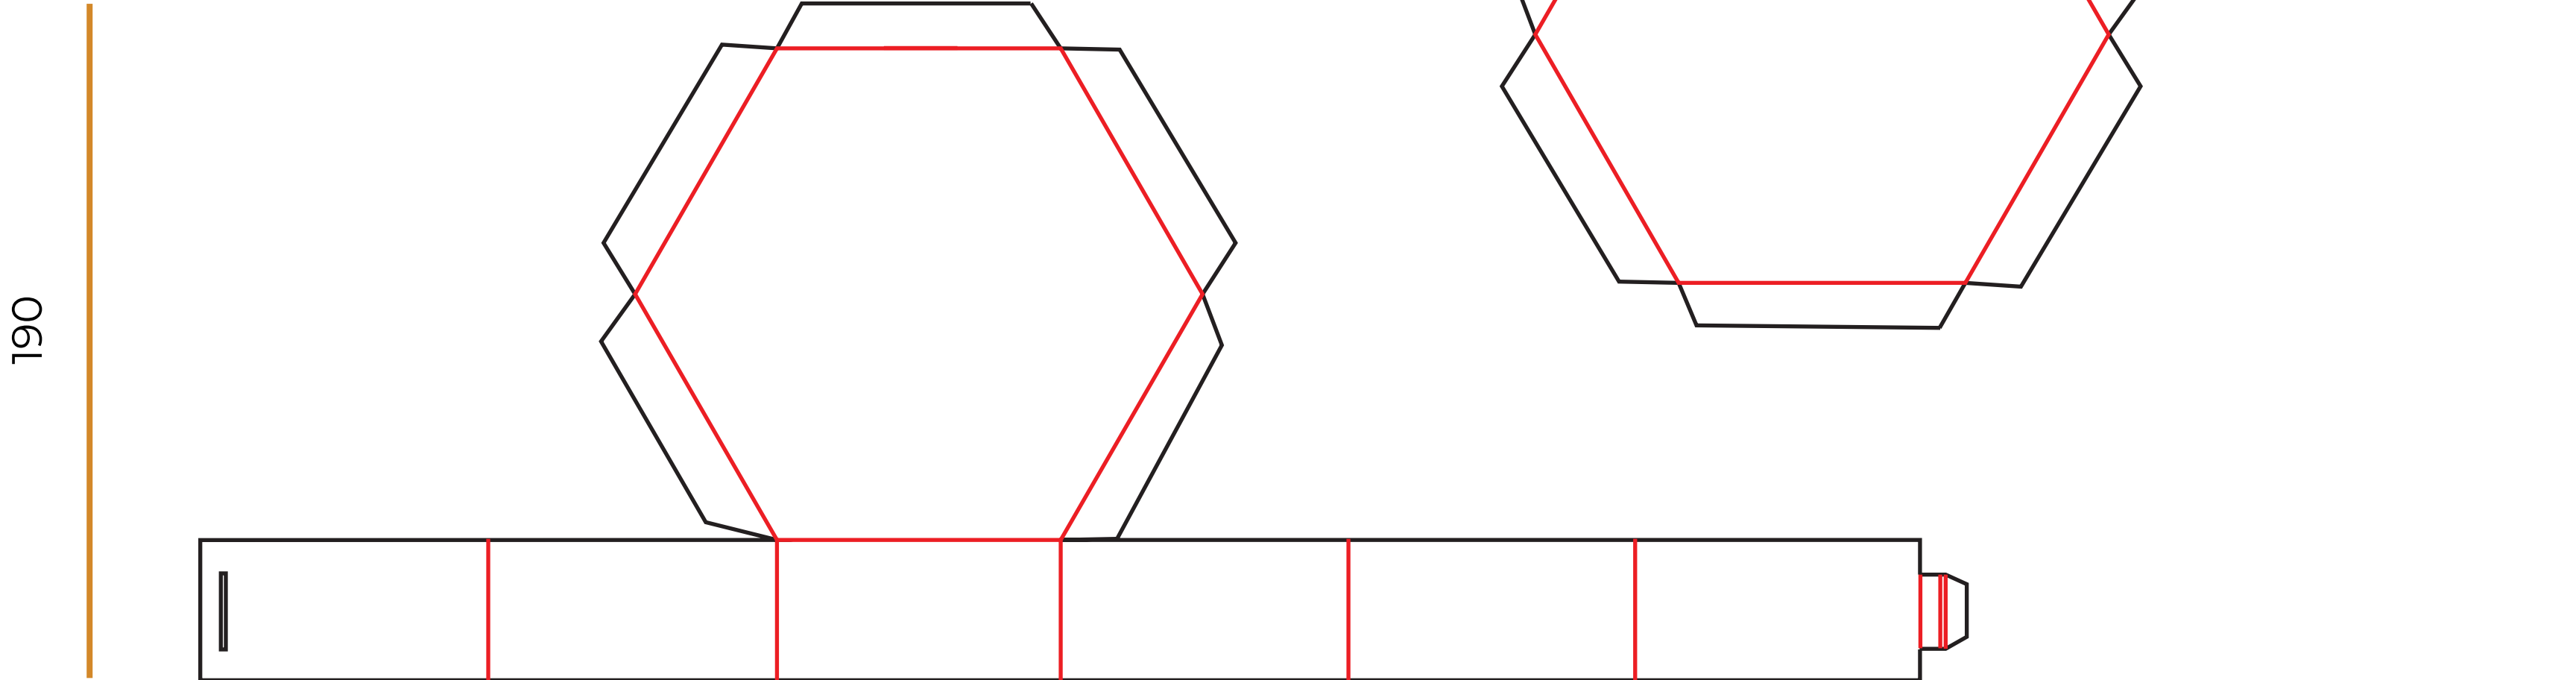

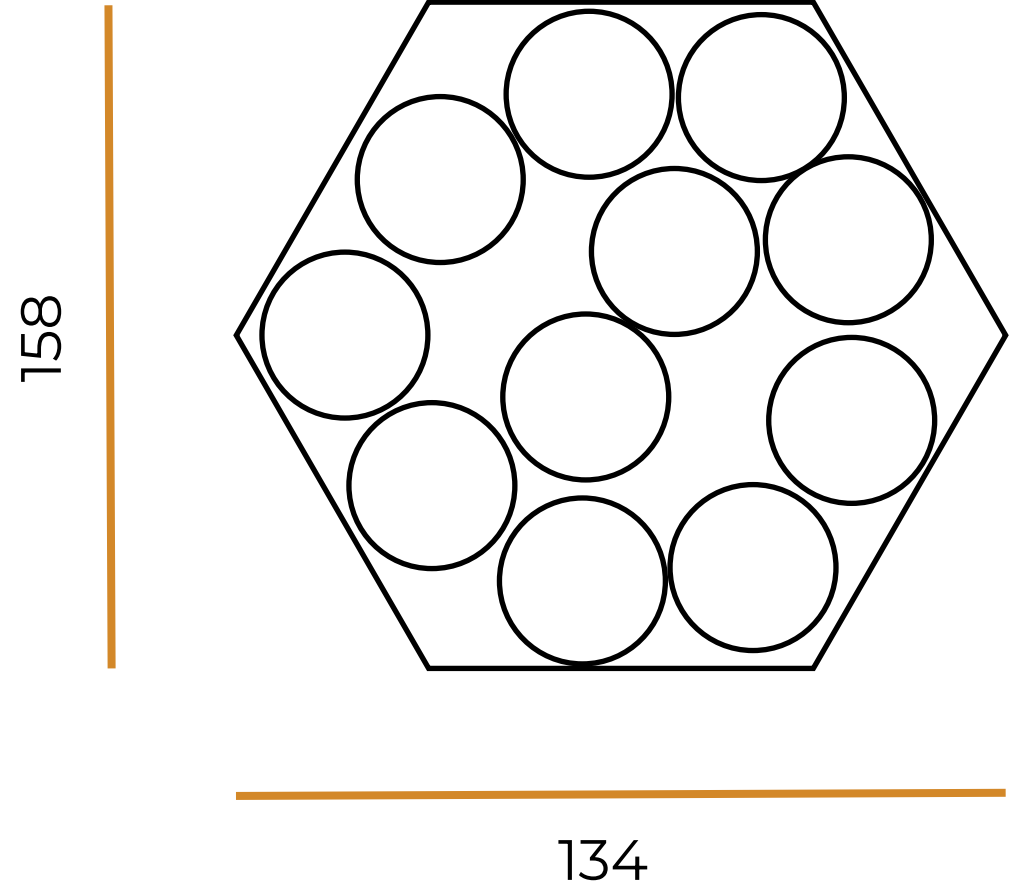

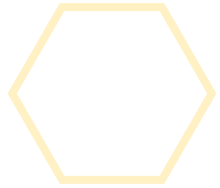

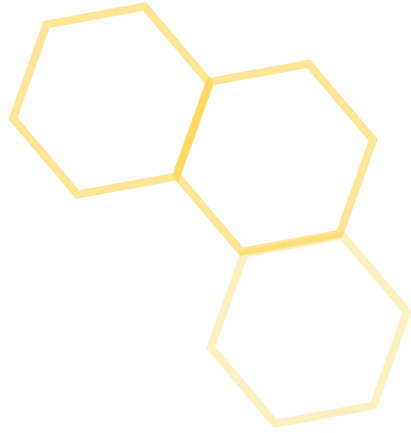

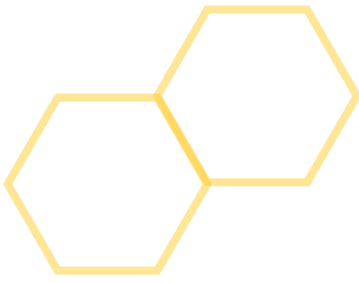

CONSTRUCTION

The packaging, can be folded without gluing, has a single lock that holds the whole structure together.
